“WE TURN NON-CONFORMING PARTS INTO CONFORMING PARTS”

V2X A51E Madison Repair Station is supported by Designated Engineering Representatives (DER) in Aerospace

Technical Approvals: DERs review and approve technical data for modifications and repairs, ensuring all work complies with regulatory standards.

Expert Guidance: DERs expertise enables the performance of complex repairs and modifications with confidence, knowing each step meets the highest safety and compliance standards.

Seamless Compliance: DERs streamline processes, efficiently handling approvals without delays, reducing turnaround times for our clients.

Quality Assurance: DERs provide additional layers of oversight to guarantee all repairs and modifications meet stringent regulatory and quality requirements.

V2X has DER repair capabilities on several parts and can add more to meet your requirements. Allow V2X to solve your problems and ease your mind.
